

Advanced Preflight After Maintenance

This seminar will cover why it is important to do a thorough preflight inspection when an aircraft comes out of maintenance and is returned to service. Additional items that should be added to a preflight checklist will be discussed. Multiple cases will be reviewed where not doing a thorough preflight inspection resulted in incidents or accidents.

Directions: Seminar will be held in the lobby of the Reid-Hillview Airport Terminal building. From Highway 680, exit onto Capital Expressway. Travel Southeast on Capital Expressway. At Cunningham Ave. turn Right. Reid-Hillview Terminal building is straight ahead then slightly left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
