

FAASTeam presents:

# Rusty Pilot Seminar

Haven't flown for a while? A really long while? It's a pretty common tale in aviation. A pilot gets his or her license then something in life intervenes to interrupt flying, sometimes for years at a time. Skills atrophy. Confidence erodes. The pilot becomes "rusty". But the dream of someday getting back into the air lingers, waiting to be fulfilled.

It's 2016! Time for all Rusty Pilots to shake off the cobwebs and build a pathway back into the air. Join us and together we will go over the steps you'll need to take to get back into the PIC seat. We'll outline a path that we regularly use at San Carlos Flight Center to return Rusty Pilots to fully-oiled PIC competency.

Note: The seminar is a high-level overview and won't provide answers to individual-specific situations. If you'd like 1-on-1 answers, you are encouraged to contact the Flight Center and ask to speak with a flight instructor. We can help you from there.

**Directions:** Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

## Event Details

**Wed, May 11, 2016 - 19:00 PST**

**San Carlos Flight Center**

655 Skyway Road

Suite 215

San Carlos, CA 94070

Contact: San Carlos Flight Center  
(650) 946-1700
