

FAASTeam presents:

Roadshow Truckee - Safety Flying In and Out of a Mountain Airport

Lake Tahoe is a wonderful destination any time of the year. Pilots are the lucky few who can skip the long drive and enjoy a spectacular flight instead. Such privilege comes with responsibility.

Our guest speaker Katie Greenwood, of the Truckee Tahoe Airport District, takes a comprehensive look at flying into and out of Truckee airport (KTRK.) She will discuss considerations for flying in the mountains, including winds and weather, icing, terrain, density altitude, and aero medical factors. She will also focus on factors unique to the Truckee airport, such as non-towered airport operations, route planning, sharing the airspace with gliders, and detailed arrival and departure planning information including common mistakes. Finally, Ms. Greenwood shares information about the local community and how the airport staff can help you enjoy your flight and operate safely.

This seminar is a must for anyone planning a flight to Truckee, and is sure to provide great tips to those pilots who have previously made the trip. We hope you can join us.

Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.
