

FAASTeam presents:

Flying the Bay Tour

Flying in the San Francisco Bay area is spectacular, a real privilege for local pilots. The Pacific Ocean, a dramatic coast line, beautiful hills, and many famous landmarks. As pilots, we are afforded a rare bird's eye view that we long to share with our friends and family.

So what exactly is a "Bay Tour"? SCFC Chief Pilot Dan Dyer will explain the various meanings of the phrase "Bay Tour" and how a pilot can accomplish one in the safest, simplest, most enjoyable manner.

We'll review the various overlapping airspaces in the area, the territories for each local ATC facility, and the routings most commonly used by Flight Center pilots. You'll learn what options are available to you even if SQL ATIS has the phrase "San Francisco is not taking surface area transitions."

If you are new to the Bay area, or just want to improve your understanding of local airspace customs and procedures, please join us for this popular seminar.

Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through
