

Flying to Mexico and Canada

Want to fly across the border? Not sure what to expect? West Valley Flying Club invites you to join us for a presentation by Jerzy Orkiszewski that will help you safely get across the border and back. He will cover topics specific to both the Canadian and Mexican borders, including flight planning, differences in airspace, eAPIS and Customs requirements, fuel availability, and ports of entry. In addition, Jerzy will discuss traveling along specific areas and routes, such as flying the Baja Peninsula and mainland Mexico.

Directions: From highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
