

FAASTeam presents:

Flying Military and Business Aircraft

Join Captain Robert "Clark" Harrell as he shares is more than 30 years experiences in military and civilian aircraft. As Clark would say, " a plane is a plane" and he will discuss the similarities of complex heavy aircraft to light general aviation aircraft. What procedures do the professions use that can enhance safety for us GA folks. What is it like and what is different about flying tin the flight levels versus the lower levels. Clark is an animated speaker who will leave you with pearls of wisdom that will add to your everyday flying.

Captain Robert Clark Harrell
Clark began his flying career over 30 years ago. He has flown every aircraft (except fighters) in the Air Force and National Guard and then subsequently joined the private sector as a Captain flying business jets and has logged over 8500 hours as a pilot and over 2000 hours as an instructor. He has personally witnessed many changes in aviation, particularly the industry's emphasis on safety and avionic technical advances.

This event qualifies for FAA Wings credit, click here to register.

Representative David Kramer

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
