

FAASTeam presents:

San Carlos Tower Operations

Did you know that the San Carlos Control Tower is a contracted tower and hence their rules of operations are a bit different from that of an FAA tower? What's going on with noise abatement, Surf Air and how can we help relations with our surrounding community? What are the local expectations of us from our tower colleagues and what can we expect from them? How do they pass us off so seamlessly from our airspace to Palo Alto, San Francisco or Norcal? How do they choose the flight patterns in our class delta?

Join Rick Stein, director of San Carlos Tower, as he reviews local customs and then opens it up to a questions and answers period so that you may find out anything you wanted to know about our airspace. These sessions are fun and informative and really help us to work as a team to insure safety and camaraderie.

This event qualifies for FAA Wings credit. Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at

Event Details

Sat, Apr 29, 2017 - 12:00 PDT

San Carlos Flight Center

655 Skyway Rd,

Suite 215

San Carlos, CA 94070

FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
