

FAA Safety Team presents:

Risk Management in Everyday Flight

Implementing a risk management process into our everyday flying is an important aspect of increasing flight safety. The risk management process includes identifying hazards, evaluating the associated risk, and then finding ways to mitigate the risk. Join us as we look at some practical ways we, as pilots, can apply these principles in our flying, with an emphasis on pre-flight planning.

Our speaker, SCAPA member Coby Sena is a full-time CFI with a strong interest in safety and risk management. When not instructing, Coby is active in the Civil Air Patrol as an instructor pilot, Safety Officer, and Standards and Evaluation Officer.

Directions: Hwy 101, exit San Martin Ave, go west one short block, (from 101 south bound, a very short block) to Murphy Ave, south on Murphy, around the west of E16, look for a sign of the Museum. Overflow parking on Murphy Ave.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
