

FAASTeam presents:

Electricity 172

This seminar is meant to build on the information you learned in private pilot ground school about the electrical system in a basic single engine general aviation airplane. It will also better prepare you for a more advanced and excellent lecture by Ben Taber in June entitled "Electricity for Pilots"

Join Dave Kramer as he will walk you through the basic electrical system of a Cessna 172 and the causes and remedies of its failures. You'll be able to visualize the system in your mind and reason out the procedures when a part of it fails.

Dave Kramer MD is an instrument rated, tailwheel endorsed private pilot as well as a basic and instrument ground instructor with an interest in weather. He has been flying since 2012, has close to 800 hours of which 300 have been in the IFR system. He also enjoys flying at night with almost 100 hours logged as well as flying in the LA area.

This event qualifies for FAA Wings credit. Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to

Representative David Kramer

promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
