

FAASTeam presents:

# Mountain Flying

Flying in the mountains can be some of the most amazingly beautiful and satisfying flying you may ever accomplish. But it comes with increased risk, and, thereby increased responsibility. Every day, GA pilots who fly in the mountains safely calculate and plan for such risks, and you can too.

Join the instructors of San Carlos Flight Center for an overview of elements of mountain flying. We'll look at how terrain and mountain weather patterns affect one another and what that means to pilots of small aircraft. We will discuss high density altitude and what it means for landing and departing at high-altitude mountain airports. Emergency preparedness and survival gear will be touched on but also covered in a more in depth seminar by Adam Kelley on June 10, 2017

This seminar also serves as a pre-trip refresher for your upcoming summer mountain flying as well as the June 28th - July 2 (Wed-Sun) 5-day Colorado Mountain Flying Trip being organized by San Carlos Flight Center.

This event qualifies for FAA Wings credit. Any questions, contact us at (650) 946-1700 or [info@sancarlosflight.com](mailto:info@sancarlosflight.com).

## Event Details

**Wed, May 17, 2017 - 19:00 PDT**

**San Carlos Flight Center**

655 Skyway Rd,

Suite 215

San Carlos, CA 94070

Contact: David Kramer

Select #: WP1575954

Representative David Kramer

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at [FAASAFETY.GOV](http://FAASAFETY.GOV). SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

**Directions:** Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

**A message from the National FAASafety Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
