

FAASTeam presents:

Cross Country Flight Planning for the August Solar Eclipse

The last total solar eclipse was in 1998 and in North America, 1991. After August, the next one will be in 2024. This is by far the most popular event for astronomers around the world. This year it will pass through Oregon, and FOG would like to take this opportunity to observe this rare and unique event and to do it safely. The path of the eclipse is over 300 miles away and in a mountainous state. This will involve cross country planning, mountain flying and high density altitude considerations.

Join Dave Kramer as he reviews this year's eclipse and what is involved to fly there and how to log this time. Dave is an instrument rated, tailwheel endorsed private pilot as well as a basic and instrument ground instructor with an interest in weather. He has been flying since 2012, has over 800 hours of which 300 have been in the IFR system. He also enjoys flying at night as well as flying in the LA area.

This event qualifies for FAA Wings credit. Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our

Event Details

Sat, May 27, 2017 - 12:00 PDT

San Carlos Flight Center

655 Skyway Rd,

Suite 215

San Carlos, CA 94070

evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
