

FAASTeam presents:

# **Building a Vans RV12 as a portal for youth into the world of aviation and its principles of safety**

EAA Chapter 20 at San Carlos Airport mobilized a team of adult members to mentor high school students to build a Van's RV-12 Kit Plane. This is no small task and the work required is often underestimated. Teamwork on a difficult project is one of the best ways to unite a group and inspire. Our EAA Chapter wanted to promote aviation to the next generation by camaraderie and a common goal as well as understanding one of the underlying principles of aviation, safety.

The regulations involved with the safe production of an aircraft will be covered.

Facilities, organization, tools, quality & safety, and ownership will be presented in an audience interactive format.

Join Bill Warner of EAA Chapter 20 at San Carlos Airport as he presents this fun and inspirational topic. Bill became motivated to pilot himself after being stuck in airports too many times with delayed and cancelled flights in 1993. He was 52 at the time. Since then he has accumulated 2,000 hours in single and multi-engine general aviation planes.

This event qualifies for FAA Wings credit.

## Event Details

**Wed, Jun 21, 2017 - 19:00 PDT**

**San Carlos Flight Center**

655 Skyway Rd,

Suite 215

San Carlos, CA 94070

**Contact: David Kramer**

**408 981-6424**

Representative David Kramer

Any questions, contact us at (650) 946-1700 or [info@sancarlosflight.com](mailto:info@sancarlosflight.com).

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at [FAASAFETY.GOV](http://FAASAFETY.GOV). SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

**Directions:** Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

**A message from the National FAASafety Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
