

FAASTeam presents:

Rapped around the Propeller

In this safety seminar we will take a look at the details of the propeller including basic aerodynamic principles, propeller components, and the evolution of propeller systems. We will explore the operations and performance aspect of fixed vs variable pitched propellers including a detailed walk thru of constant speed propeller systems.

Herb Patten is an FAA certificated advanced and instrument ground instructor who teaches private pilot ground school at San Carlos Flight Center. He holds a private pilot certificate with an instrument rating, has over 800 hours and flown into 111 different California airports. He is co-founder of the Bay Area Student and New Pilot Support Group, and a board member of the Upwind Foundation, famous for its Upwind Summer Scholarship Program. In 2015, Herb was named a Master Instructor by the National Association of Flight Instructors.
