

FAASTeam presents:

iPADS in the Cockpit

Flying today is faster, airspaces and restrictions more numerous, and skies more congested than when dad flew. What if it's the first time in a new area? Can your eyes, pilotage and paper flipping keep up?

The power, speed and flexibility of the iPad make it the ideal electronic flight bag. Many of us have already experienced the ease of electronic charts over paper charts. On a multi-state journey, it's hard to beat the ability to zoom and scan rapidly. And it can be a lot lighter to take an iPad than several A/FDs, E6Bs, charts, and approach plate catalogs.

Join Stoo Davies, instrument rated private pilot and computer programmer, in this seminar as he covers the uses of the iPad as an electronic flight bag especially in relation to the most commonly used app, ForeFlight. Pilots are invited to participate and share their experiences both with paper and electronics. A projector with an iPad connector will be available to share the iPad's screen with the group at large.

Flight planning, navigation, weather, airport information, and instrument procedures. Which uses are a good idea, and which can get you into trouble? Join us for a lively discussion of the latest in iPad applications and technology.

This seminar is a must for the 21st century pilot.

This event qualifies for FAA Wings credit.
Any questions, contact us at (650) 946-1700 or
info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
