

FAASTeam presents:

Tips for Improving Your Landings

Flying is a nuanced muscle/mental coordination skill, and that is never more true than when landing. A good pilot juggles four primary controls simultaneously to position the aircraft safely and correctly for landing. Passengers grade us on our landings, but are they even watching what is important? How can a mediocre pilot bump themselves up a few notches in landing ability?

CFI Dan Dyer has about 8,000 landings from both left and right seat, and loves breaking down the complex art of airplane landing into its components. In this presentation, Dan will share some tips you can use to improve your landing ability. Some of these tips are just getting your head right about the role of the pilot and the goal for the landing. Some of the tips are exercises you can practice yourself the next time you fly, to build up your physical skills and your eye-hand coordination.

If your landings need improvement, this seminar may be able to get your started on the right track.

Dan Dyer is Chief Pilot of San Carlos Flight Center and has been instructing for 11 years, first

Event Details

Wed, Oct 11, 2017 - 19:00 PDT

San Carlos Flight Center

655 Skyway Rd,

Suite 215

San Carlos, CA 94070

Representative David Kramer

in helicopter and now in airplanes. He has almost 4,000 flight hours and is the Bay Area's local expert in crosswind landing instruction. He is known for finding simple and innovative ways to explain complex topics and regularly speaks on advanced ground school topics. He co-founded and manages the Bay Area FlyOutGroup - a social club of over 400 pilots that meet for lunches, dinners, and other fun aerial adventures. Find out more about Dan at www.sancarlosflight.com or contact him at dan@sancarlosflight.com

This event qualifies for FAA Wings credit. Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
