

FAASTeam presents:

Insights From a Closer Review of IFR Low Altitude Enroute Charts

You probably have a general understanding of IFR charts including Victor airways and MEAs, but when was the last time you really looked closely at all the information available on a chart. Do you recall how to decipher MRAs? How about the different type of fixes found along an airway? We will take a close look at some hidden gems of details on the IFR enroute charts.

SCFC Ground Instructor Herb Patten will present a safety seminar that will help to end the confusion. He will demystify the numbers and markings on the FAA's IFR Low Enroute Charts and help pilots develop a better understanding of the details on these charts. Herb will explain waypoint and navigational aid symbology, and describe the various altitudes shown on the charts. This is a valuable safety seminar for new IFR Students and a great refresher for pilots that are already instrument rated.

Herb Patten is an FAA certificated advanced and instrument ground instructor who teaches private pilot ground school at San Carlos Flight Center. He holds a private pilot certificate with an instrument rating, has over 800 hours and flown into 111 different California airports. He is co-founder of the Bay Area Student and New Pilot Support Group, and a board member of the Upwind Foundation, famous for its Upwind

Event Details

Sat, Oct 28, 2017 - 12:00 PDT

San Carlos Flight Center

655 Skyway Rd,

Suite 215

San Carlos, CA 94070

Representative David Kramer

Summer Scholarship Program. In 2015, Herb was named a Master Instructor by the National Association of Flight Instructors.

This event qualifies for FAA WINGS credit.

Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at

FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home.

Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
