

FAA Safety Team presents:

CFI Open Forum

Virtually every pilot will need to fly with a Certificated Flight Instructor every 24-months and is the only chance a CFI has to interact with pilots that don't seek to obtain recurrent training. We'll examine pilots involved in enforcement action or pilot deviations and how to complete a flight review with utmost integrity. We'll cover the role of the evaluator, how to design a risk-based flight review at the same time as assessing scenarios in training, tools and endorsements to use when performing a flight review.

Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: Sunwest Aviation is in its new location at the northeast side of the field. Drive towards the airport's main terminal building on Aero Drive but then turn right onto Airport Drive. There is ample parking in front of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

Event Details

Thu, Nov 30, 2017 - 18:30 PST
