

FAASTeam presents:

Surviving A Checkride

Join us for tips on how to pass your next checkride confidently and safely. We will cover how to prepare mentally and physically for the demands of a checkride (IMSAFE checklist), build your endurance and manage fatigue, use the PAVE framework for discussions with the examiner, and much more. Come learn how to reduce your stress, manage risk, and maximize your performance before, during, and after your time with the examiner.

Nariman Farsaie is a CFI at West Valley Flying Club, has been teaching for over 15 years, and is a passionate, animated speaker. Hicham Sabir recently passed his Private Pilot practical test under the guidance of Nariman and will provide his insights and lessons learned from his successful checkride experience.

Directions: From highway 101 head east toward the bay, and take two immediate right-turns onto Skyway (along the west side of the airport). The Skyway building is on the left after the Aviation Museum.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
