

Busted! How to Form Habits for Legal Safe and Stress Free Flying

Do you always ask yourself how you can enjoy more flying with less of the stress? Is the thought of a Class B airspace violation or runway incursion always in the back of your mind? You're not alone, and there are habits we can all form to reduce the risk and stress of flying. Many of these practices can be done for free, from the comfort of home. Then, when you strap into the airplane, you'll have better situational awareness, more time to look outside, and more mental space to make quick, informed decisions for managing new sources of risk that pop up in flight.

Directions: From highway 101 head east toward the bay, and take two immediate right-turns onto Skyway (along the west side of the airport). The Skyway building is on the left after the Aviation Museum.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
