

San Carlos Tower Operations

San Carlos Tower Air Traffic Manager Stacey Maye will discuss a variety of topics that apply to all pilots operating out of SQL. Come hear about upcoming edits to the noise abatement procedures, Minimum Vectoring Altitude changes (MVA), potential changes to the San Francisco Class B airspace, and recent aircraft incidents at SQL. For IFR pilots, Ms. Maye will also provide easy to understand guidance for flying the VFR-to-IFR departure procedure off Runway 30.

Note the location of this seminar, although the topic is KSQL, it will be held at WVFC Palo Alto.

Directions: From highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
