Representative GREGORY THOMAS WEST

Have you been collecting questions on airplane components and systems that you just haven't been able to answer? Now is your chance! Come take advantage of this rare opportunity to ask your questions to an experienced mechanic. We will remove the engine cowl from one of our training airplanes to allow you to see components which are not normally visible during a preflight inspection.

Jasper Sardalla is Shop Foreman of the West Valley Flying Club Maintenance Department and is an A&P mechanic with an Inspection Authorization.

Directions to the maintenance hangar will be posted at the front desk of the clubhouse (Suite 100).

Directions: From Highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
