

FAASTeam presents:

New SFO Class B - How to Be Ready

As pilots, we need to know how to navigate the new SFO Class B airspace from Day 1. The new layout is effective August 16th and contains significant changes that affect almost every kind of local operation. In this seminar, we will highlight differences between the old and new Class B, as well as how the new design affects local flight operations including arrivals and departures to/from PAO and SQL. In addition, we will share the best tools you can use to familiarize yourself with the new airspace before it goes live. Greg Savidge is a CFI-I/MEI at West Valley Flying Club who competes in aerobatic competitions and has a passion for teaching others the joys and exhilaration of flight. Join us for a review of the new SFO Class B layout and what you can do to ensure safe, fun, stress-free flying!

Directions: From Highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
