

FAASTeam presents:

Radio Communication Workshop

Enroute Radio Communications: flight following and flight service stations

This is a 3 hour workshop from 12- 3 pm

Flying through in the many airspaces of California requires a high degree of situational awareness and sophisticated radio skills. And yet, radio communication is rarely taught as a specific subject during private pilot training. Usually, new pilots just absorb what they hear on the frequency around them, both good and bad. Although some radio techniques are covered in ground school, rarely do student pilots get the time devoted to demystifying this often-confusing subject.

SCFC's 3-hour Radio Communication Workshop on Enroute Radio Communications , with emphasis on flight following and flight service stations is meant to bridge the gap, to help newer pilots understand the structure of radio calls and how to improve their own radio skills, with plenty of chance to practice their skills. Herb Patten, Assistant Chief Pilot, AGI and CFI and Dan Dyer, Chief Pilot and CFI will walk workshop participants through a foundation of radio communication phraseology and use, from the basics through advanced ATC services. The

workshop will be a variety of lecture, classroom exercises, and group work analyzing recorded radio calls from actual ATC communications. Learn how to make radio communication easier and safer for all pilots.

The workshop begins at 12.00pm at San Carlos Flight Center main classroom and continues until 3:00 pm, and is open to anyone.

Herb Patten is the Assistant Chief Pilot of San Carlos Flight Center, a CFI and an FAA certificated advanced and instrument ground instructor who teaches private pilot ground school at San Carlos Flight Center. He is a commercial pilot with an instrument rating, has over 900 hours and flown into at least 111 different California airports. He is co-founder of the Bay Area Student and New Pilot Support Group, and a board member of the Upwind Foundation, famous for its Upwind Summer Scholarship Program. In 2015, Herb was named a Master Instructor by the National Association of Flight Instructors.

Dan Dyer is Chief Pilot of San Carlos Flight Center and has been instructing for 14 years, first in helicopter and now in airplanes. He has over 4,000 flight hours and is the Bay Area's local

expert in crosswind landing instruction. He is known for finding simple and innovative ways to explain complex topics and regularly speaks on advanced ground school topics. He co-founded and manages the Bay Area FlyOutGroup - a social club of over 400 pilots that meet for lunches, dinners, and other fun aerial adventures. Find out more about Dan at www.sancarlosflight.com or contact him at dan@sancarlosflight.com

This event qualifies for FAA Wings credit.

Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center has created BAY FLIGHT 2018, an aviation conference for SF Bay Area pilots interested in staying current about the latest topics in aviation, learning new skills and techniques, and hearing from leaders in the field and will be held on Oct 27, 2018 (www.bayflight18.com).

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at FAASAFETY.GOV. SCFC members may choose

to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
