

FAA Safety Team presents:

ADSB Now Do not get left in the hangar

REDISTRIBUTED DUE TO NEW DATE OF 10/09. Due to circumstances beyond our control we are postponing the date of this event from 09/28 to 10/09. We apologize for any inconvenience this may cause.

Almost half the aircraft in the San Francisco Bay Area are not yet ADS-B compliant. If they do not take action now to schedule the necessary equipment changes, they will be grounded on January 1, 2020.

How will the Automatic Dependent Surveillance Broadcast system affect the way pilots fly? What are the different types of compliant radios, their costs, benefits and limitations? What are the installation requirements for aircraft owners?

Directions: Hwy 101, exit San Martin Ave, go west one short block, (from 101 south bound, a very short block) to Murphy Ave, south on Murphy, around the west of E16, look for a sign of the Museum. Overflow parking on Murphy Ave.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
