

FAASTeam presents:

# Flying The San Francisco Bay Tour

Learn about the tour from the creator of the S.F. Bay Tour map, which is now updated to incorporate recent S.F. Class B changes. Flying the Bay Tour is fun, though it helps to plan your tour before you depart. There are many considerations, including the routes and altitudes to be flown, ATC communications, required clearances, and weather issues. You'll always want to consider in advance any alternatives, in case you're unable to execute your original plan. There's been at least one fatal accident that occurred while flying a S.F. Bay Tour and you'll learn the details of what went wrong on that flight. The seminar also shows photographs of major landmarks on tour and provides a brief history of some of them that you can share with your passengers when you fly the tour.

**Directions:** From Highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
