

FAASTeam presents:

On Board Radar

Not many of us have on board radar but if we did, would we know how to use it and what information it can provide? On Board Radar can give us a wealth of tactical information but it can also fool us if we do not know what we are looking at or what the immediate weather in front of us can mask further down the line.

If you fly with radar, want to learn more about the advantages of radar or just some weather traps that can happen when flying around weather, join Tom McGrath, TBM pilot who has flown all over the Western Hemisphere and Europe and has gathered a plethora of knowledge and experience.

Tom McGrath retired from Lockheed Martin in 2012 and now consults to the US Gov't on Missile Defense. He is a private pilot with SEL-I privileges. With approximately 6000 hours flight time, with 4500 in Bonanzas and 1600 in TBM turboprops, he now flies 300-350 hours a year for business and personal purposes. Seeking adventure, Mr. McGrath has flown Bonanzas to Europe, South America, Central America, Caribbean, Bahamas and Alaska. With the TBM, he has flown to Europe 3 times.

Event Details

Sat, Jan 5, 2019 - 12:00 PST

San Carlos Flight Center

655 Skyway Rd,

Suite 215

San Carlos, CA 94070

Representative David Kramer

This event qualifies for FAA Wings credit.

Any questions, contact us at (650) 946-1700 or info@sancarlosflight.com.

San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. Space is often limited so it is important to sign up early through the FAA event notification system at FAASAFETY.GOV. SCFC members may choose to watch the seminar live over the web at home. Contact your SCFC member service rep at (650) 946-1700 to confirm secure online access to any particular seminar.

Directions: Directions to Room: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
