

FAASTeam presents:

Allergies and Asthma and Flying

If you are taking allergy or asthma medications, are you aware the impact these medications have while flying? Allergies are a common issue that people deal with in life, and they can have a detrimental impact on pilots.

Doctor Brian Lipson, an Aviation Medical Examiner, will explain the impact of allergies from an aviation perspective. Pilots often treat allergies with medications but may not know the impact they have on decision making in the cockpit. In this seminar, we will review common medications and their impacts on pilots, as well as the rationale for why certain medications are allowed and certain medications are not. In order to understand how medications work, Doctor Lipson will explain the mechanisms and physiology of allergies and asthma and how the various medications work with an emphasis on the consequences of taking these as pilot in command.

Dr. Brian Lipson is a board-certified Allergy/Immunology and Internal Medicine. He has been in private practice in the Bay Area since 1990 with offices in Redwood City, Fremont, and Hayward. He recently completed his AME training and is now doing AME exams in his offices.

Event Details

Wed, Mar 27, 2019 - 19:00 PST

San Carlos Flight Center

655 Skyway Road, 215

215

San Carlos, CA 94070

Contact: DAN KELLY DYER
(415) 305-9051

dan@sancarlosflight.com

Select #: WP1590903

Representative DAN KELLY DYER

Directions: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
