

ICAO Flight Plans Demystified

The FAA now requires pilots to use the new international flight plan format when filing for VFR and IFR domestic and international civil flights. There is much to know about the new format, but this seminar will distill the information into an easy-to-understand format and present sample flight plans for a variety of missions and aircraft types.

Directions: From highway 101 head east toward the bay, and take two immediate right-turns onto Skyway (along the west side of the airport). The Skyway building is on the left after the Aviation Museum.

Flying In: Transient parking is on the opposite side of the airport. Plan on a 10-15 minute walk around the airport perimeter to the Skyway building.
