

FAASTeam presents:

How To Be A Good Safety Pilot

Kelly O'Dea, full time WVFC flight instructor will be presenting a seminar on what a safety pilot is, what the FAA rules are and the responsibilities of this very important position as a required crew member when operating with either an instrument rated pilot for currency requirements, or, a pilot working towards the instrument aeronautical experience required for the instrument rating. This seminar is open to all pilots who are curious to learn the details of this topic. We would especially like to welcome any seasoned instrument pilots who are willing to share their insights on what makes or breaks an effective simulated instrument flight in regards to the safety pilot. Needless to say, this should be a great opportunity to meet other future instrument pilots as well as experienced instrument pilots and make connections with potential safety pilots. Let's strengthen our network of safety pilots and keep sharp while operating en route in the National Airspace System.

Directions: From highway 101 head east toward the bay, and take two immediate right-turns onto Skyway (along the west side of the airport). The Skyway building is on the left after the Aviation Museum.

Flying In: Transient parking is on the opposite side of the airport. Plan on a 10-15 minute walk around the airport perimeter to the Skyway building.

Event Details

Wed, Nov 20, 2019 - 19:30 PST

West Valley Flying Club

655 Skyway Rd.

Suite 101

San Carlos, CA 94070
