

FAASTeam presents:

Ask the Mechanic - Q and A in the Hangar

Have you been collecting questions on airplane components and systems that you just haven't been able to answer? Now is your chance! Come take advantage of this rare opportunity to ask your questions to an experienced mechanic. We will remove the engine cowl from one of our training airplanes to allow you to see components which are not normally visible during a preflight inspection.

Jasper Sardalla is Shop Foreman of the West Valley Flying Club Maintenance Department and is an A&P mechanic with an Inspection Authorization.

Please meet at the front desk so we can walk to the hangar as a group.

Directions: From Highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

A message from the National FAASTeam Manager
