

FAASTeam presents:

Advantages and Pitfalls of AATDs

Do you want a Garmin G1000 checkout? Do you want to save money on your IFR training? Confused about what you can and can't log in an Advanced Aviation Training Device (AATD)? We will answer those questions and more in this small-group seminar, where we will use the newest G1000 AATD at West Valley Flying Club. Seating is extremely limited due to the hands-on experience with AATDs the attendees will enjoy. Attendees who are West Valley Flying Club members will receive a checkout that allows them to use all 3 G1000 simulators at the Club. Kostas is a CFI-I at West Valley Flying Club and consultant at Building 33 Aviation, LLC helping aerospace companies meet their Air Traffic Management (ATM) and Safety Risk Management (SRM) needs.

Directions: From Highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.
