

FAASTeam presents:

Whats Happening at San Carlos Airport

Keeping an airport strong takes a lot of hard work. The airplane owners and pilots of San Carlos Airport are fortunate to have a great team from San Mateo County maintaining and protecting the airport. Issues are addressed instantly, from runway surface issues to refurbishing the hangars, and limiting neighboring construction against flight operations. SCFC periodically invites SQL Airport Managers to update the pilot community on anything that can impact the safety of flight operations. What upcoming closures can pilots expect? What changes can pilots expect to operating rules and procedures? What is the status of work to improve traffic pattern coverage by the contract control tower?

If you fly at San Carlos Airport, this presentation will bring you current with the latest news and information for pilots coming from the SQL Airport Management office.

San Carlos Airport is owned and operated by San Mateo County. Airport managers oversee and support both county airports, Half Moon Bay and San Carlos, with primary offices at San Carlos. The airport gets better every year, and the manager oversees a great number of development projects to improve service to pilots

Event Details

Sat, Mar 7, 2020 - 12:00 PST

San Carlos Flight Center

655 Skyway Road

215

San Carlos, CA 94070

Contact: Brandan Dadoun

650-483-0715

brandan@sancarlosflight.com

Select #: WP1599093

Representative Brandan Dadoun

and for the county.

Directions: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.
