

FAA Safety Team presents:

Skydiving at San Martin Airport E16

Skydiving is returning to E16. California Skydive Center from Hollister is expanding and beginning a second operation at E16. Owners Ronaldo Tkotz and Vitor Tamarozi will speak at this meeting, to explain their jump procedures and details of their parachute landing zone at the airport. The advantage of using E16 is the proximity of the landing zone to the returned jump plane.

A four page handout is available for participants of this meeting. All pilots flying in and out of E16 should attend to become familiar with this important information. For those who must be absent, inquiries should be directed to info@1800funjump.com

Directions: Hwy 101, exit San Martin Ave, go west one short block, (from 101 south bound, a very short block) to Murphy Ave, south on Murphy, around the west of E16, look for a sign of the Museum. Overflow parking on Murphy Ave.
