

FAASTeam presents:

# Planning a Flight with ForeFlight

ForeFlight is a useful tool for many pilots as it provides a number of tools a pilot might need to plan a flight, obtain a weather briefing, and track their flight in real time. Living in a digital age, pilots should learn to use tools like this to enhance their overall flight planning process. San Carlos Flight Center invites CFI Russell Bowerman and private pilot Brandan Dadoun to provide a walk-through of how they use ForeFlight to plan a cross-country flight. In this seminar, they will investigate what it takes to accurately plot checkpoints, calculate performance values, and ensure that you as the pilot are familiar with “all available information concerning a flight.” The presenters will start the session with a sample flight mission so that viewers/attendees can follow along in real-time using ForeFlight on their own device. ForeFlight offers a wealth of features that can sometimes be overwhelming. We hope you will join us for this seminar to see a practical aspect of this app towards real-world flight planning.

Brandan Dadoun is a Private Pilot and SCFC’s Seminar Coordinator. He has completed the majority of his flight training at SCFC with over 200 flight hours and has extensive flying experience throughout all of California in both

Representative BRANDAN DADOUN

piston and turbine powered aircraft. He is actively involved within many aviation programs, and is currently pursuing his instrument rating. When he's not flying, he enjoys playing the saxophone and staying active.

Russell Bowerman has always maintained an interest in aviation, visiting aviation museums, taking sightseeing flights, and staying up to date on all the newest fighter jets and airliners. After receiving his Private Pilot Certificate in 2018, he decided to make a career of it, attaining his Commercial and CFI ratings. Russell has been teaching and loving it ever since. Beyond flying, he really enjoys traveling and feels lucky to meet new people and learn about their diverse backgrounds in the process of flight training.

**Directions:** NO REGISTRATION REQUIRED, FOLLOW STEPS BELOW TO ACCESS OUR LIVESTREAM:

Step 1:

Create a free flight center account by clicking on thislink.

Step 2:

Log-In (Top rlight of the screen) to your Flight Center account through our main website.

Step 3:

Proceed to this linkat the listed seminar start time to watch the seminar live. If you have any questions for the presenter, you will find in the bottom left corner of your screen an "Ask a Question" button to ask your questions.

If you have any technical difficulties signing on to our Livestream at the time of the published seminar, please let me know. The sooner, the better!

NOTE FOR WINGS CREDIT: Please watch till the end to receive a "code phrase" that the presenter will state. After the seminar is over email please click the button at the bottom of the Livestream page saying "Click here for WINGS credit" and we will process your request within a few days.
