

FAASTeam presents:

**WINGS Over SLO Pilot Proficiency Workshop SLO99s
Scholarship Fundraiser**

Mike Busch is arguably the best-known A&P/IA in general aviation. He writes the monthly "Savvy Maintenance" column in AOPA PILOT, hosts free monthly EAA-sponsored maintenance webinars, has written two books about maintenance and is working on two more. Mike was honored as "National Aviation Maintenance Technician of the Year" for 2008, has been a pilot and aircraft owner for over 50 years with 8,000 hours logged, and is a CFII. He's CEO of Savvy Aviation, Inc. and co-founder of AVweb.

Aircraft engines and other components have traditionally been maintained on a fixed timetable (e.g., TBOs), although this time-based approach has gradually given way to condition-based maintenance based on regular inspections. Now this inspection-driven approach is starting to give way to "predictive maintenance" based on data from sensors installed on the aircraft and engine. Mike Busch, A&P/IA, discusses this latest trend and how it's starting to trickle down to owner-flown piston GA.

Event Details

Sat, Sep 17, 2022 - 13:30 PST

ACI Jet FBO

945 Airport Drive

Hangar

San Luis Obispo, CA 93401

Contact: Susan Conner Steeb

818-292-3193

SCSteeb@gmail.com

Select #: WP15114042

FPM KAREN ANN ARENDT

Directions: Rte. 227 to Aero Drive, left to Airport Drive, ACI on the right. The seminar is located in the large hangar off the lobby. Parking will be available on site on a first come-first served basis.

Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.
