

The ABCs of Instrument Flying

Flying IFR can feel overwhelming with its complex navigational systems and instrument procedures. But it can be as simple as A.B.C.!

Join us to learn this simple three-step method to enhance your skills and confidence in the skies. We'll cover how to interpret weather information, plan your approach, and execute smooth landings.

Whether you're a novice or a seasoned pilot, this session will equip you with the tools to navigate safely and effectively.

Don't miss out on the opportunity to take your flying to the next level!

Join us in person at AeroDynamic Aviation at Reid-Hillview Airport (KRHV) or attend online via Google Meet. Please see the FAASafety.gov webinar option with the same event title and date for online details. The event lasts 2 hrs from 10 AM - 12 PM PDT

A message from the National FAASTeam Manager
