

Cross Country Flight Planning

The Cross-Country Flight Planning workshop will be based on a trip between two Bay Area airports. This is an hands on workshop with participants working in small teams to successfully plan a flight and create a navigation log that could be used to make the flight. It's as real as we can make it. Participants will work through preflight planning decisions and factor in aircraft performance and fuel requirements.

Join us if you would like some practice with the flight planning process including using faa.gov to look up NOTAMS and TFRs, reviewing airport information available in the Chart Supplement, creating a navigation logs, factoring airplane performance and determining fuel requirements.

Welcome to San Carlos Flight Center and our Safety Seminar Program.
