

Bird Hazards and Flights Over National Refuges

As part of our commitment to sharing the air safely with our neighbors, San Carlos Flight Center has invited Laura Velasco Mayock, a speaker from the Seabird Protection Network, which partners with pilots to protect seabird colonies along our coast. We've asked her to help our pilots understand the wildlife in the SF Bay Area, particularly along the water's edges. She will share incredible stories about the local wildlife, and info about NOAA overflight areas and the special species they are designed to protect.

There will be chances to win fun, unique prizes – so don't miss it!

Welcome to San Carlos Flight Center and our Safety Seminar Program.

San Carlos Flight Center believes in the philosophy that a good pilot is always learning. Join us to master challenging ground topics, discover new flying destinations, fine-tune radio skills, and learn from industry professionals. With an active in-house speaker bureau and a growing guest-speaker base, we continue to schedule a wide variety of presentations, equipping you with the knowledge to operate more safely.
