

Enroute Radio Communications

Flying through airspaces of California requires a high degree of situational awareness and sophisticated radio skills. And yet, radio communication is rarely taught as a specific subject during private pilot training. Usually, new pilots just absorb what they hear on the frequency around them, both good and bad. Although some radio techniques are covered in ground school, rarely do student pilots get the time devoted to demystifying this often-confusing subject.

San Carlos Flight Center invites senior instructors Herb Patten and Dan Dyer to show how to perfect your communication and phraseology. They will cover radio phraseology from the basics through advanced ATC services with emphasis on flight following and flight service stations. This seminar will include many examples on how to recognize bad radio calls, and how to fix them. Learn how to make radio communication easier and safer for all pilots.

If you are interested in becoming better at your radio, you don't want to miss this seminar.

Welcome to San Carlos Flight Center and our Safety Seminar Program.

San Carlos Flight Center believes in the philosophy that a good pilot is always learning. Join us to master challenging ground topics, discover new flying destinations, fine-tune radio skills, and learn from industry professionals. With an active in-house speaker bureau and a growing guest-speaker base, we continue to schedule a wide variety of presentations, equipping you with the knowledge to operate more safely.

Join us to view our seminars in person at our facility in San Carlos, located at 795 Skyway Road, Suite A San Carlos, 94070. Seminars will be available to view in person at our facility in San Carlos for free.
