

## San Carlos Airport Pilot/Controller Forum

We're thrilled to welcome the new Tower Managers at San Carlos Tower (KSQL), who have done an outstanding job navigating recent transitions. Their leadership has helped reestablish positive control at the airport, and we're excited to offer the flying community an opportunity to connect with them in person.

While Class D airports may sometimes be overlooked, those who fly at or control traffic at San Carlos know just how active and complex this airspace can be. With thousands of operations supporting training and general aviation, KSQL remains one of the busiest non-commercial airports in the region.

Join us for an open conversation focused on enhancing flight safety and communication between pilots and controllers. Topics will include:

### Event Details

**Wed, Jun 11, 2025 at 19:00 PDT**

**San Carlos Flight Center**

795 Skyway Rd

Suite A

San Carlos, CA

**Contact: Herbert Patten**

**(415) 272-1265**

**hpatten@pacbell.net**

**Select #: WP15137631**

**Representative Herbert Patten n/a**

- What should pilots better understand about controller workload and managing traffic flow?
- What should controllers consider about how their instructions impact pilot workload and flight training?

San Carlos Flight Center is on the southwest side of the airport and there are no transient aircraft parking spots on the field other than the Transient Parking adjacent to the SQL Terminal Building. If you plan to fly in for the event, please be aware that we have no parking spots and that you'll need to walk 0.7 miles around the airport from airport Transient Parking to our offices.

#### **A message from the National FAASafety Team Manager**
