

Understanding Weather for Pilots with the National Weather Service San Francisco

Event Details

Join San Carlos Flight Center for an engaging seminar featuring NOAA weather specialists Rick Canepa and Sean Miller, as they delve into the process of creating aviation weather forecasts. Discover how atmospheric soundings influence cloud and fog formation, directly impacting aviation operations. Rick and Sean will also explore the critical role of aviation weather specialists, including how they:

- Compose Terminal Aerodrome Forecasts (TAFs)
- Analyze local weather patterns
- Provide essential weather information for pilots
