

San Carlos (KSQL) Airport Update

Change is inevitable. That includes the San Carlos airport. Changes are coming to the airport and we have invited Michael Byrne, Airport Manager to provide an update to the community about near-term and long term changes planned for the airport.

Some of the changes that you have noticed include key card access for many of the airport entrances. Come learn about the reasons for this change along with some of the other plans for renovation of some of the facilities at the airport.

If you are a pilot that operates at San Carlos you will want to attend this special event to hear about the latest updates to the airport.

The seminar will be in-person at the San Carlos Flight Center, 795 Skyway Road, Suite A in San Carlos.

Representative Herbert Patten n/a

San Carlos Flight Center is on the southwest side of the airport and there are no transient aircraft parking spots on the field other than the Transient Parking adjacent to the SQL Terminal Building. If you plan to fly in for the event, please be aware that we have no parking spots and that you'll need to walk 0.7 miles around the airport from airport Transient Parking to our offices.
