

## A Test Pilots Perspective on eVTOL

Raymond J. Schreiner (RJ), a former U.S. Marine Corps test pilot and United States Naval Test Pilot School graduate and instructor, will share insights from his aviation career, from flying AH-1 Cobra helicopters to working in the rapidly evolving eVTOL industry. Since transitioning from military service in 2016, he has contributed to advanced aircraft development at companies including Zee Aero, Wisk, Supernal, Pivotal, and Joby. He will discuss safety in experimental flight test programs, the challenges of expanding the flight envelope in new aircraft, and what these developments may mean for the future of general aviation.

This event will be held in the West Valley Flying Club conference room. From Highway 101, head east toward the bay and turn left just after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking is available in the golf course parking lot.

### A message from the National FAASTeam Manager
