FAASTeam presents:

Safely Planning a Flight to Little River (KLLR)

Little River and Mendocino are two towns that are known for their scenic headlands, historic villages, arts and culture, nearby nature due to the proximity to redwood groves, Russian Gulch State Park (known for its 36-foot waterfall and Devil's Punchbowl) and food with farm-to-table dining, local craft breweries, and close proximity to the Anderson Valley wine region.

CFI Darin Bernstein will discuss what pilots flying to Little River need to know. New destinations, especially cross-country flights, challenge pilots to expand their skills and adapt to different scenarios. In this seminar, Darin will summarize flight planning to the Little River airport, KLLR. He will review common routes, insider secrets about the airport, local transportation and what to do in the area.

If you ever considered venturing to a new destination with spectacular beauty and nature, the area around Little River will not disappoint you. Join us for this seminar to hear tips about making a trip to Little River a success.

The seminar will be in-person at the San Carlos Flight Center, 800 Skyway Road in San Carlos.

Note: Construction is occurring at 795 Skyway Road so the seminar will be in the portable classroom just past 795 Skyway Road.

San Carlos Flight Center is on the Southwest side of the airport and there are no transient aircraft parking spots on the field other than the Transient Parking adjacent to the SQL Terminal Building. If you plan to fly in for the event, please be aware that we have no parking spots and that you'll need to walk 0.7 miles around the airport from airport Transient Parking to our offices.
