## 7<sup>th</sup> Annual California Central Valley "Wings Weekend"

The Central Valley Aviation Association (CVAA), the EAA Chapter 376 of Fresno, California has again joined efforts with the Fresno Flight Standards District Office to host an all-inclusive "*Wings Weekend*" at the Fresno Executive/Chandler Airport (FCH) in Fresno, California.

Instructor debriefs her applicant during the 2006 "Wings Weekend"

This event, meets all of the requirements for the FAA's Pilot Proficiency Program in one weekend as well as your required 2 year flight review 61.56(e) !

This activity is an aviation experience, promoting aviation safety and pilot proficiency based upon the guidelines of FAA Advisory Circular 61-91H "*Pilot Proficiency Award Program*". There will be on-going 'ground safety seminars' as well as volunteer Instructors to provide any pilot participant, his/her required 3 hours of flight training.

### Aerodynamics & Upsets

On May 5<sup>th</sup>, Mr. Wayne Handley of Turbo Raven Fame will be giving an excellent interactive lecture on "*Why Does My Airplane Do That*" ! Followed by safety presentations by the United States Air

Force and Navy, "*Staying clear of Military airspace.*"

## Avoiding Mid-Air Collisions & Other Seminars

On May 6<sup>th</sup>, Dr. Ken Orloff, retired NASA engineer will be discussing how to avoid mid-air collisions. Then Mr. Harold Gallagher will converse on "*Sailplane Techniques for Power Pilots*"

## General Aviation Displays

Many Central Valley Aviation Vendors will have their products on display such as:

1. Scott Aircraft Services (Cessna)	6. Light Sport Aircraft
2. McCormick Distributing—(Jabbaroo Aircraft)	7. Cirrus Aircraft
3. Reedley College (A& P School)	
4 Tom Lopes (Cirrus Aircraft Repair)	
5. Approved Turbo Components (ATC, Inc.)	

Instructor and applicant:  
2005 "Wings Weekend"
