

Aircraft Performance and limitations

This is a powerpoint presentation to acquaints the audience with some of the elements related to determining aircraft and pilot performance and offers hints for increased safety in takeoff and landing events. The program also addresses the importance of observing aircraft limitations. We'll talk about aircraft performance parameters and calculations. We'll also offer suggestions that will help you with aircraft performance prediction. Aircraft limitations will be discussed and finally, we'll give you some tips and tricks that will help you to avoid performance-based accidents in any aircraft.

Directions: Mariposa Airport is located @ 5 miles north pf Mariposa on Hwy 49. near the town of Mt. Bullion.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
