

FAA Safety Team presents:

# CFI Open Forum

Flight instructors must recognize what is happening internally with students and either reinforce positive reaction strategies and attitudes, or identify where restricted thinking exists in order to optimize the students' capabilities. At this FAASafety Team Flight Instructor Open Forum we will explore this complex topic to better prepare our students. ALL PILOTS and STUDENT PILOTS are encouraged to attend! Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are particularly encouraged to attend to share and participate. Bring a student! Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!
