

Flying the Grand Canyon

Ever dream of flying the Grand Canyon? Of course you have! Come listen to FAA Safety Inspector Paul Joly share his years of experience flying and training pilots to operate in this beautiful-though-congested scenic airspace. Paul will detail the rules and special procedures pilots must follow, and will provide a graphic presentation of the airspace and how to fly within it. This is a must-see seminar for anybody planning to fly the Canyon, or for those who just want to learn how it's done safely.

Directions: By car, access via Airport Drive to frontage road. Look for large sign on front of building. By plane, visitors must park at an FBO (Bakersfield Jet, Atlantic, Epic Jet (closest)) and walk to CAP building. There may be a fee for parking. Contact FBOs for details.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
