

Navigating LA Airspace

If you get the jitters thinking about flying into LA airspace, you're not alone and this seminar is definitely for you. Join CFI Tom Peterson as he explains the details of navigating through, around, and over the LA Class Bravo. Going to Catalina, Long Beach, Santa Monica or Santa Anna? Taking the kids to Disneyland? Learn the quickest and safest ways to get from Point A to Point B, and avoid doing something dumb and having that dreaded controller 'conversation.'

Directions: Boughton Drive is off Airport Drive, across the street from Fabulous Burgers, at Bakersfield Meadows Field Airport. CAU is near the end of Boughton Drive, on the right.

A message from the National FAASTeam Manager
