

Weather Flying

Join the pilots of Bakersfield Flying Club as they continue their springtime seminar series on aviation weather. Local television meteorologist Miles Muzio reviews basic concepts of weather analysis and weather hazard identification. Polish your decision making skills with a comprehensive review of aviation weather. Miles' decades long experience in meteorology will benefit pilots of all experience levels. Receive a long term outlook for the 2025 flying season and techniques to apply in planning your future flights. Storm chasing videos from a recent trip to the mid-west will be presented and discussed.

Bakersfield Flying Club is located on the second floor of the Bakersfield Jet Center. Follow the signs upstairs to the meeting room. Fly-ins are welcome on the Bakersfield Jet Center ramp.

A message from the National FAASTeam Manager
